NATALIA SOWA
Web Development Student

ABOUT ME

After 4 years working in Marketing field, I've decided to switch paths and pursue my programing dreams. I've started my journey with HackYourFuture school in Copenhagen where I got to learn how to create beneficial web solutions using various technologies, such as reactJS, mysql, expressJS etc. I'm mostly passionate about the frontend development as well as design.

WORKING EXPERIENCE

HackYourFuture Graduation Project | Link

Jan 2022 - Present - 2 months, Copenhagen
